TABLE OF CONTENTS

Title Page i
Approval Sheet ii
Abstract iii
Acknowledgments iv
Table of Contents v
List of Tables vi
List of Figures vii

CHAPTER 1: INTRODUCTION

1.1 Project Context 1
1.2 Purpose and Description 3
1.3 Objectives of the Study 4
1.3.1 General Objective. 4
1.3.2 Specific Objectives 5
1.4 Scope and Delimitations 6
1.5 Significance of the Study 8
1.6 Definition of Terms 10

CHAPTER 2: REVIEW OF RELATED LITERATURE AND STUDIES

2.1 Related Literature (Foreign and Local) 12
2.2 Related Studies (Foreign and Local) 15
2.3 Synthesis of the Reviewed Literature and Studies 20

CHAPTER 3: TECHNICAL BACKGROUND

3.1 Overview of Current Technologies 22
3.2 Evaluation of the Existing System (Manual or Automated) 24
3.3 Technical Feasibility 26
3.3.1 Hardware Specifications 26
3.3.2 Software Specifications 26
3.3.3 Network/Architecture Specifications 26

CHAPTER 4: METHODOLOGY, TESTING, AND EVALUATION

4.1 Software Development Life Cycle (SDLC Model) 30
4.2 Requirements Analysis 33
4.3 System Design and Modeling ..... .36
4.3.1 Context Diagram 37
4.3.2 Use Case Diagram 38
4.3.3 Data Flow Diagram (DFD) or Activity Diagram 37
4.3.4 Entity Relationship Diagram (ERD) 38
4.3.5 Data Dictionary 39
4.4 Software Testing Plan 45

4.4.1 Unit Testing..... 46
4.4.2 Integration Testing..... 47
4.4.3 System Testing..... 47
4.5 User Acceptance Testing (UAT) and Evaluation 48
CHAPTER 5: RESULTS AND DISCUSSION
5.1 System Implementation 50
5.1.1 Main Interface / Dashboard..... 51
5.1.2 Core Modules Features..... 52
5.2 Evaluation Results (ISO/IEC 25010) 55
5.3 Discussion of Findings 60
CONCLUSIONS AND RECOMMENDATIONS
6.1 Summary of Findings 65
6.2 Conclusions 67
6.3 Recommendations 68
BACK MATTERS
References (APA Format) 70
Appendices..... 71
Appendix A: Relevant Source Code Snippets..... 72
Appendix B: User Manual..... 73
Appendix C: Survey Instruments / Questionnaires..... 74
Appendix D: Grammarian's Certificate / Plagiarism Report..... 75
Curriculum Vitae..... 76

II. DETAILED CONTENT DESCRIPTION

Chapter 1: The "Why"

- **Project Context:** Describe the current situation of the organization. What is the "pain point"?
- **Objectives:** The **General Objective** is the "what" (To develop a system...). **Specific Objectives** are the "how" (To design, To implement, To test).
- **Scope & Delimitation:** Be very specific. If you aren't doing SMS notifications, put it in Delimitation so the panel won't ask for it.

Chapter 2: The "Foundation"

- **RRL/RRS:** Don't just copy-paste. Explain how each study relates to your project.
- **Synthesis:** Summarize the gap. "Existing systems lack X, which our system provides."

Chapter 3: The "Tech Stack"

- **Hardware/Software Specs:** List the minimum and recommended requirements to run your app.

Chapter 4: The "How" (Most Important for IT)

- **SDLC:** Most students use **Agile** or **Iterative**. Explain your sprints/phases.
- **Diagrams:** These must be technically accurate. Your **ERD** must match your actual database tables.
- **Evaluation Method:** Explain how you used the **ISO/IEC 25010** standard to let users rate your software.

Chapter 5: The "Output"

- **Screenshots:** Include clear screenshots of your best features.
- **Data Tables:** Present the mean scores of your surveys (Usability, Security, Reliability).

Chapter 6: The "Wrap-up"

- **Conclusion:** Must directly answer your Objectives in Chapter 1. If you had 5 objectives, you should have 5 corresponding conclusions.
